§ 212.2

be conducted in the United States by the foreign company are banking or closely related to banking, it does not appear that any regulatory or supervisory purpose would be served by prohibiting a minority investment in the foreign firm by a United States banking organization.

In view of these considerations, the Board has reviewed its policy relating to the activities that may be engaged in in the United States by foreign companies (including foreign banks) in which Edge Corporations, member banks, and bank holding companies invest. As a result of that review, the Board has determined that it would be appropriate to interpret sections 25 and 25(a) of the Federal Reserve Act (12 U.S.C. 601, 611) and section 4(c)(13) of the Bank Holding Company Act (12 U.S.C. 1843(c)(13)) generally to allow United States banking organizations, with the prior consent of the Board, to acquire and hold investments in foreign companies that do business in the United States subject to the following conditions:

(1) The foreign company is engaged predominantly in business outside the United States or in internationally related activities in the United States;* (2) the direct or indirect activities of the foreign company in the United States are either banking or closely related to banking; and (3) the United States banking organization does not own 25 percent or more of the voting stock of, or otherwise control, the foreign company. In considering whether to grant its consent for such investments, the Board would also review the proposals to ensure that they are consistent with the purposes of the Bank Holding Company Act and the Federal Reserve Act.

[46 FR 8437, Jan. 27, 1981]

*This condition would ordinarily not be met where a foreign company merely maintains a majority of its business in international activities. Each case will be scrutinized to ensure that the activities in the United States do not alter substantially the international orientation of the foreign company's business.
